

### ASLA - Open Air Steel Structures

Incorporating Shade to the Hardscape... The Easy Way

1 Hour, 1 HSW Credit

#### PROGRAM DESCRIPTION

It's time to start thinking about how Hardscaping is reshaping the areas we live, work, and play. There is so much that goes into the design and some professionals have not had the opportunity to stay up to date on trends in materials and capabilities.

Course outline:

- What's the latest
- Future Designs Trends
- Health & Wellness Benefits
- Material Options
- Design Options
- Market Segments
- Value of Partnerships
- Case Study - Risks & Rewards

### AIA - Open Air Steel Structures

Adding Value to the Built Environment (Course #CEAS2024)

1 Hour, 1 HSW Credit

#### PROGRAM DESCRIPTION

There has been a seismic shift in how we now think about space. Join us in discussing how, through design and partnerships, we can expand the health & wellness of users in the built environment without sacrificing creativity, uniqueness or budget.

Course outline:

- Reactions to Global Events
- Future Designs Trends
- Health & Wellness Benefits
- Biophilic Design
- Material Options
- Design Options
- Market Segments
- Value of Partnerships
- Case Study - Risks & Rewards
