Custom Structures

Contact us to discuss our custom design capabilities.

Material Features

Glide Elbow™

Our Glide Elbow quick release mechanism allows for easy installation and removal of your fabric in the case of a fabric refresh or inclement weather. All you need is a wrench or cordless drill (with the right size socket). The metal-on-metal wear is minimized with our fabric hook connection.

Warranty

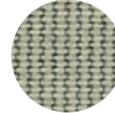

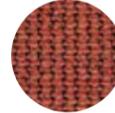

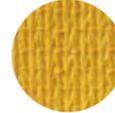

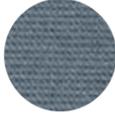

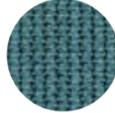

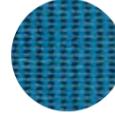

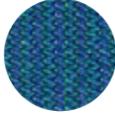

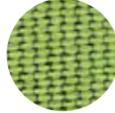

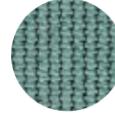

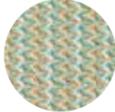

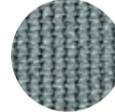

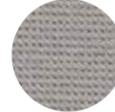

Poligon warrants that its product will be free from defects in materials and workmanship as well as maintain structural integrity for dates listed in warranty. The warranty is in effect only if the product has been assembled and installed strictly in accordance with the setup instructions provided by Poligon, good construction practices, general maintenance and care is provided as per instructions in the customer packet, and has been subjected only to normal use and exposure.

Fabric Colors

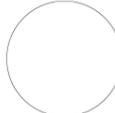

Traditional Fabric

Select fabric options marked with an asterisk (*) are California Fire Marshal certified Fire Retardant and pass the NFPA 701 or ASTM E84 tests. Backed by a 10-year limited warranty.
