

Kingspan Polycarbonate

Roof Panels

Naturally Enhanced Environments

Create brighter, more inviting outdoor spaces with polycarbonate roofing solutions designed to enhance the performance and experience of your open-air structure. Kingspan Light + Air panels introduce abundant natural light while minimizing glare and heat buildup, transforming covered spaces into comfortable, welcoming environments with UV protection and long-lasting durability.

What We Offer:

Poligon offers two different types of polycarbonate roofing, U-Lite™ & Briteway® for structure designs seeking a more open look that utilizes natural lighting.

U-Lite™

- Slim design gives the appearance of glass without the added cost
- Provides soft, diffused natural daylight
- Designed for low-slope structures and sleek appearance
- Durable high-impact polycarbonate glazing
- UV resistant
- Lightweight system for efficient installation
- Ideal for schools, healthcare facility's, offices, and commercial entrances

Briteway®

- Honeycomb-like "tight-cell" grid within panels
- Diffuses sunlight making it glow rather than cast harsh shadows
- Design flexibility including curved and vaulted configurations
- High-impact polycarbonate glazing for durability and safety
- UV resistant
- Engineered for long-lasting performance with low maintenance
- Ideal for entrance canopies, walkways, transit stations, and civic spaces
