Details

Roofing Systems

Tongue and Groove sub-roofing

Wood roof deck of nominal 2x6 tongue and groove with v-joint bottom face lumber makes for a warm interior finish. The #1 grade Southern Yellow Pine T&G is field cut then screwed in place. Optional factory staining seals the T&G.

Asphalt Shingles

A wide range of asphalt shingles are available. Asphalt shingles must be used in combination with T&G primary roof and felt.

Earthtone Cedar

Weatherwood

Harvard Slate

Dual Brown

Dual Black

Multi-rib Roof

24-gauge galvalume steel sheets come with a Kynar color paint finish. Multi-rib roofing must be used in combination with T&G primary roof and felt. The ribs are 1 3/16" high and 12" on center. Multi-Rib roofing is supplied pre-cut to length and field trimmed. Poligon supplies color matched 24-gauge trim for caps, ridges, eaves, fascia, and rake. The metal roof deck is attached with color matched exposed fasteners with gaskets. Colored pop rivets assist in attaching trim. Multi-rib comes in a wide selection of colors. Visit our website for most up to date color listing.

Stain Colors

Frame and T&G roofing comes unfinished
Stain choices are optional
