

Artistic Shade with Pattern, Light, and Performance

Parasoleil® artistic metal panels bring patterned light, visual texture, and architectural character to Poligon shade structures.

Poligon structures can be specified with Parasoleil artistic metal panels to introduce patterned shade, sculptural texture, and design expression into outdoor environments.

Precision laser-cut aluminum panels filter sunlight to create evolving patterns of light and shadow throughout the day. When integrated into Poligon shade structures, they combine **art, architecture, and environmental performance** to shape memorable spaces within the landscape.

DESIGN IDEAS

- 100+ exclusive artistic patterns – [View patterns](#) →
- Award-winning proprietary powder coat and patina finishes – [View finishes](#) →
- AAMA 2604 super-durable architectural coatings

Parasoleil patterns draw from **organic, geometric, cultural, and contemporary motifs**, offering a wide range of visual expressions suited to parks, campuses, civic spaces, and commercial environments.

Panels are available in **1/8", 3/16", and 1/4" aluminum thickness**, selected based on design intent and site conditions.

PERFORMANCE BENEFITS

- Filters sunlight to create **comfortable shaded environments**
- Patterned openings allow **natural airflow**, helping reduce heat buildup
- **Powder-coated aluminum** engineered for long-term exterior durability
- **Maintenance-free architectural finish**
- **Pre-engineered panels** designed for seamless integration with Poligon structures

DESIGN APPLICATIONS

- Overhead Shade Panels
- Canopy Structures
- Park Shelters and Pavilions
- Privacy and Screening Elements
- Trellis and Garden Screens
- Railing Panels
- Mechanical and Service Area Screening
- Signage and Backlit Features

WHY DESIGNERS SPECIFY PARASOLEIL

The Interplay of Light and Shadow:

Patterned panels act as a living sculpture, transforming shade structures into dynamic environments.

Artistry Meets Engineering

Every panel is pre-engineered for structural integrity and code compliance, allowing for bold artistic designs.

Unrivaled Exterior Performance

Our proprietary finishes are specifically developed to offer maintenance-free, exterior-grade durability with high UV stability.

Create Shade Structures That Do More Than Provide Coverage

Parasoleil panels help transform shade structures into **memorable architectural features within the landscape.**
