Arch
curved roof shelters
ARC

Design Intent:
Simple arc shaped roof shelter with open gable ends.

Standard With This Shelter:
• Steel columns and frame members coated with super-durable Poli-5000 powder coat finish.
• Kynar 500 painted, steel Mega-rib roofing panels.
• Eave trim.

Shelter Options:
Shelter can be modified by adding rake trim, railings, gutters, a different column design, ornamentation*, integrated seating, lightning protection, electrical cut-outs, windscreens, walls, or an increase in clearance height.

*Addition of ornamentation increases building height by 10".
