

Design Intent:

The crossing is a focal point structure which leads people to it, it denotes an important destination. The steep pitched roofs enable highly visible gable ornamentation possibilities.

Standard With This Shelter:

- Steel columns and frame members coated with super-durable Poli-5000 powder coat finish.

Primary Roof

Options:

- Tongue-and-Groove
- Structural Insulated Panels
- Multi-Rib
- Mega-Rib •Standing Seam*

Secondary Roofing

Options:

- Multi-Rib
- Standing Seam
- Mega-Rib
- Asphalt or Cedar Shingles

Shelter Modifications:

Shelter can be modified by adding a cupola, railing, integrated seating, ornamentation**, gutters, lightning protection, electrical cut-outs, windscreens, walls, an increase in clearance height, or by selecting a different column design from our offering.

* Standing seam only requires a custom frame.

**Ornamentation increases building height by 10".

Crossing CRS

BIN	Size	Square Feet	Height
CRS	12'	144	13'-6 1/4"
CRS	16'	256	15'-11 1/2"
CRS	20'	400	17'-9"
