SHELTERS FOR SCHOOLS

For the largest variety of shelter shapes, sizes and styles, specify a Poligon

OTC 28

When you choose a Poligon you are getting:

Professional Team - Poligon's sales, design and engineering teams will assist you through every step of the process making sure your project meets your exact needs and budget.

Tubular steel design - Eliminates the need for gussets or exposed bolts. Bird nesting is also eliminated.

Superior finish - All shelters are protected by our Poli-5000 powder coat, the most durable finish in the industry, offered in 24 smooth colors and 10 textured colors.

On-time delivery - Our highly efficient design and manufacturing process will help to ensure that your project is completed on time. All manufactured products are inspected before being shipped out on dedicated flatbed trucks.

Ease of installation - Our shelters feature bolt-together assembly. Field welding is not required, saving time and money.

Standard or Custom Poligon shelters can easily be adapted to your existing school site. All shelter sizes are available in 1' increments and offer options such as ornamentation, railings, column covers and cupolas. However, if you need a shelter with special size or shape requirements, our knowledgeable team will work with you from concept to completion. Choose Poligon to create a one of a kind structure perfect for your site.
